Description

A beautiful wood with a mixed age structure including mature [beech](#), as well as tall larch, pine, [oak](#), [sycamore](#) and a few [sweet chestnut](#) and [birch](#) trees.

Along the southern boundary, a large cherry tree can be found and several holly bushes are dotted through.

At ground level, there are lots of animal pathways crossing the wood, amid patches of blackberry, wild garlic, swathes of [bluebells](#) and dogs' mercury and even a patch of wild violets.

In the centre of the wood, a track leads south from the ride-stop, and off to the left, there's a bench in a glade of majestic mature beech trees with patches of bluebell.

The west side of the wood is mostly younger trees, still with a high canopy, with lots of sycamore, oak, a few ash and young beech seedlings. To the east of the beech grove, tall pine and larch trees grow

The wood enjoys good access, with tracks along the north and south of the wood there are views over farmland to the north.

Trees

Beech, oak, sweet chestnut, ash, sycamore, cherry, holly, larch and pine.

Wildlife

Beechy Copse has a rich ecology and there is a great deal of wildlife to be found. [Buzzards](#) hunt around the wood boundaries and never seem far away with their mewing calls. Inquisitive [red kites](#) swoop in to monitor your movements. [Jays](#), [blackbirds](#), [wrens](#) and [robins](#) can be seen as well as wood pigeons which love to roost here.

Animal trails of roe deer and other mammals criss-cross through the wood and beds or scrapes can often be found. It would be great to install a hide, or put up a trail cameras to see what else passes through when humans are not around.

Local area and history

West Park Plantation, of which the wood is part, sits on a high ridge of limestone, just to the north of Bramham Park and Hope Hall.

Bramham is a product of a [grand tour](#); its creator Robert Benson, later Lord Bingley, completed his formal education with a grand tour in 1697, and whilst in Italy he began to envisage his new mansion in the Palladian manner complemented in a landscaped park, in the fashion made popular by [Le Nôtre](#) in France in the late 17th century.

The house and park are still privately owned by the family with Nick Fox-Lane the current custodian, the estate is best known for hosting Leeds Festival and Bramham Horse Trials. The wood, until recently, was part of the estate.
